

THE HICKMAN COURIER.

HICKMAN, KY.

FRIDAY, FEB. 22, 1890.

PENNSYLVANIA people are to vote on a prohibition amendment next June.

CREATHAM, of North Carolina, will be the only colored Representative in the next Congress.

A MOVEMENT is afoot to erect a monument in honor of the late John A. Harlan, who died at Chicago with an endowment fund of \$250,000.

THE weekly paper of the state, published in unvarnished terms the importation of Texas (Mexican) ponies to Tennessee.

THERE is no doubt that marriage is a failure in the case of the Pennsylvania couple, eighty-five years old who have just been divorced after sixty years of married life.

NEVADA once had a population of 200,000. Now it has 15,000. Yet Nevada has an equal representation in the Senate with States which have a larger population.

IT is seriously believed by his best friends that Senator Beck will never be able to resume his Senatorial duties. The next Kentucky Legislature will have two Senators instead of four to elect.

GEN. HARRISON announces that he will not make public his Cabinet for two weeks. The President will not be irritated over the publication of what is considered a pretty good guess at his selections.

THE size of the average Southern Republican leader may be very accurately judged by the character of the "allies" they offer Mr. Harrison. What they want more than anything else is a bloody shirt South as an Attorney-General in Harrison's Cabinet.

THE Tennessee legislature has a bill before it to prohibit running freight trains on Sunday. The hypocrite who has introduced it seems entirely willing that the roads may run a thousand passenger trains on Sunday, but draws a line at the hauling of freight.

CHATTANOOGA TIMES.

THE New York Press says: "Our people are growing more tired of Democratic election methods as practiced down South."

Yes, and our people are growing more tired of the Republican legal methods as practiced by White Cops up North.

THAT the times are exceedingly hard in the Northwest is proven by the fact that the Legislature of Minnesota has appropriated \$100,000 for the purpose of buying seed wheat for the destitute.

THAT the times are exceedingly hard in the Northwest is proven by the fact that the Legislature of Minnesota has appropriated \$100,000 for the purpose of buying seed wheat for the destitute.

AN alarming state of things is reported from North Carolina in the way of race troubles. The negroes, inspired by radical agitators, are threatening a general election. It is believed that the whites have driven out the negroes. The trouble, doubtless, is the work of Northern agitators.

THE Owings block, one of the tallest office buildings in America, collapsed Wednesday in Chicago. It was fourteen stories high. It happened that only fourteen workmen were in the building when it fell, alarmed by the cracking noise, escaped before the crash. The ten-story structure fell, leaving the four-story one and the supporting walls intact.

THE Park Central Hotel at Hartford, Conn., was blown to pieces early Monday morning by the terrific explosion of a boiler in the engine room. Fifty workmen were buried under the wreckage, flames and smoke, and many were killed or maimed or burned. Of the fifty, sixteen are dead, nineteen are missing, ten are in the hospital, and five escaped.

THE Cincinnati drug goods firm which tried to make its employees stand behind counters for 15 hours a day, and eat their time in 15 minutes reckoned without its host. The girls got indignant and threatened a strike, and the firm, speedily returned to shorter hours, he added granting the girls the privilege of leaving against the counter when discharged.

A REFORMATION in ladies dress has been commenced in St. Louis, and is rapidly spreading to that city and prevailing favorably. Thousands of ladies of St. Louis have discarded that detestable basin. We hope it will not be long before the same reformation will follow the example of the country towns will follow the excellent example of their sex in the above named city, especially in this section.

THE Australian ballot system, which is just now being agitated in several states, is designed to become universally adopted throughout the union, and it goes a long way toward preventing corruption and tampering with the rights of electors. The system has already been adopted in Louisiana and is now being adopted in other states.

THE Boston Herald says that members of Congress are beginning to vest themselves of partisan bias in election cases, and therefore such cases should be referred to a judicial tribunal. This is not, by any means, a new remedy for the national evil. In judicial tribunals have a partisan bias as well as members of Congress, and are no more likely to be just in their decisions. The famous 8 to 7 decision of the Electoral Commission shows how partial and sinister judges may find law and facts to suit their politics.
